## Chapter H. DESIGN YOUR OWN

Vehicular and ordnance notes are grouped by nationality. Inside each nationality there are page leaps both because other tables are inserted between the nationality notes and also because newer vehicles/ordnance appearing in newer modules appear in higher numbered pages. There are also many page inserts in the same page number, suffixed with letters (H28A, H28B, ...).

Note: The publisher Chap N pages were low-resolution black and white images of ASL counter sheets, and were included in each new module, for the counter sheets therein, even if there were no other "rules" pages.

These days, players rely instead on higher resolution color counter sheet scans (such as those on BGG) and/or on the informational spreadsheets maintained by Reid Hutchinson on ConsimWorld: <http://talk.consimworld.com/WebX?8@@.1dd15110>

Hence, as originally formatted, Chapter N is incomplete, not maintained, and deprecated, fully superseded by player-maintained resources.
