N1: ACTIVATION CHECK (AC) (5.1)

Finnish-ENEMY S? rolls for Activation if...

- A) FRIENDLY Infantry is in LOS within 12 hexes with a Final IFT DRM
- B) FRIENDLY Infantry is in LOS within 8 hexes with a Final IFT DRM
- C) FRIENDLY Infantry is in LOS within 6 hexes with a Final IFT DRM
- D) FRIENDLY Infantry/Unarmored-vehicle is in LOS within 4 hexes with a Final IFT DRM <=1</p>
- E) FRIENDLY Infantry/Unarmored-vehicle/CE-AFV is in LOS within 2 hexes with a Final IFT DRM <=2
- F) Any FRIENDLY unit is ADJACENT

N9: FINISH RANDOM EVENT (2.)

Colored dr drm (2.3):

±x as per MSR

* Each RE preceded by an "*" may occur once per mission (2.31)

DR Random Event

- *01-02 Engineer platoon arrives! Three Assault Engineer (H1.22) 8-3-8 squads, equipped with SMC/SW as per standard DYO procedure (H1.8-.83), arrive. Make a dr: ≤2, each squad may enter on a Truck (as per a DR on {F7}); 3-4, on a Wagon/Sledge; otherwise the units enter as Infantry. Each squad receives one DC. If the scenario is set in 41-45, a FT is also allocated to the platoon.
- *03 Engineer platoon flank attack! As per Finnish RE 02 except the units must enter on either the north or south (per Random dr) edge of any mapboard (player's choice), provided that map-board has at least one Finnish unit on it.
- *04 Each ENEMY dr on the Fortification Generation Table {A5} has a +2 drm for the duration of the Mission.
- 05 Sappers arrive! A number {A6a} of 6-4-8 Sapper squads are received. Make a DR {F3} for leader possibility. Each sapper squad automatically receives one DC.
- *06 Air support! Finnish Fighter-Bombers arrive during the next ENEMY MPh. Make a dr {A6f} to determine the number available; all are automatically armed with bombs (ignore E7.1-.21). Reroll for another RE if conditions prohibit this RE.
- *11 Recon section arrives! A number {A6g} of recon vehicles are received: make a DR on Table F6b for each such vehicle received.
- 12 Infantry reinforcements! Make a dr for the number of squads received, and for the type {F2}. All squads are the same type. SW/SMC are allocated per H1.8-.183.
- 13 Motorised Infantry reinforcements! As RE 12, but each squad received may enter on an Opel Blitz (player's option).
- 14 A peasant with useful information is encountered. The player may immediately remove a number (as per a dr) of S? that are within LOS of any one unbroken Finnish Infantry unit. No "free" LOS checks are allowed before removal.
- 15 ENEMY resistance is fading. The player may immediately remove a number of S? (as per a DR). A S? in a VPO Location may only be removed if no other non-VPO-Location S? are present. If no S? are currently onboard, reroll for another RE.
- 16 SW section arrives. Make a dr for each SW listed below:

Lt. Mtr: number received per dr {A6d}(roll for type: all are the same)

MMG: number received per dr {A6h}

HMG: one is received on a dr ≤ 2

ATR: one is received on a dr ≤1

- Each SW comes with a HS {F2, with a -2 DRM: all are the same type).
- *21 Cavalry patrol arrives! Determine the number {A6a} of 6-4-8 squads received. Each squad comes with a squad-sized Horse counter.
- *22 Recce units arrive! Determine the number {A6f}, type {F6b} (make a separate DR for each), and armor leader {F3}. On a subsequent dr of ≤2 each vehicle of the RE may enter on the north (or south, as per a random dr) edge of any mapboard (player's choice) provided that mapboard has at least one Finnish unit on it.
- 23 Tanks! Determine the number {A6c}, type {F6} and armor leader {F3}; all are the same type.
- *24 ENEMY ammunition supplies dwindling! The ENEMY suffers from the effects of Ammunition Shortage (A19.131) for the duration of the Mission.
- *25 Gun section arrives! Determine the number {A6g} and type {F5} (use the "Outside" column; all are the same type). Each Gun is crewed by one 2-2-8. At the player's option each such reinforcement Gun may be Manhandled or Towed onboard. If Towed, make a DR {F7} to determine the Transport type (reroll, if necessary, until a vehicle is determined that is able to tow the Gun type).
- 26 Sissi commandos arrive! A number {A6d} of 8-3-8 squads arrive [EXC: on a dr ≤2 each unit must enter anywhere along the north (or south, as per a Random dr) edge of the current mapboard configuration (all enter on the same edge)]. On a dr ≤2 a leader {F3, with a -2 DRM} is also received. SW allocation is as per H1.8-1.83
- *31-32 Request for artillery support has been granted! Determine OBA type received by a DR on the Chapter H "Finnish OBA Availability Chart" (p. H71). Next make a dr {F8} to determine the ammunition supply. The player may immediately give one Finnish radio to any Finnish leader of this choice [EXC: if the ENEMY is in Advance Attitude the player may instead choose a Field Phone, recording a Security Area as necessary] or an 8-0 leader with a radio enters along the FBE mounted on a motorcycle/Skis or on foot: player's option.
- 33-35 Infantry reinforcements! Make two dr {A6b} to determine the number of squads received. Determine the squad type (all are the same) by a DR {F2}. Determine SMC/SW using H1.8-.183.
- 36 Finnish Sniper finds a target! Perform RE 46.
- *41 ENEMY AFV is Recalled! Determine the AFV affected by a Random dr (for purposes of this RE an AFV platoon counts as a single AFV) and immediately mark such as Recalled (D5.341). If there is currently no Mobile ENEMY AFV onboard reroll for another RE.
- *42 ENEMY AFV is Immobilized! Determine the AFV affected by a Random dr, and immediately mark such as Immobilized (D8.1). Immobilization TC is not required. If there is currently no Mobile ENEMY AFV onboard reroll for another RE.
- **43** ENEMY resistance slackens! The ENEMY AC# decreases by one [EXC: if AC# is already 2 conduct Finnish RE 15 instead].
- 44 Make a subsequent dr and perform the indicated RE:
 - dr \leq 3: ENEMY RE Numbers decrease by one (2.4) [EXC: if ENEMY RE Numbers are currently 2/3 conduct RE 43 instead].
 - dr ≥4: Rumors of Finnish reinforcements on the way. Finnish RE Numbers increase by one (2.4) [EXC: if Finnish RE Numbers are currently 6/7 reroll for another RE].

DR Random Event

- **45** Finnish leader turns heroic (A15.21)! Determine the affected leader by Random dr among all currently non-Captured, non-Disrupted, non-Heroic on-board non-armor Finnish leaders. If no Finnish leader is eligible reroll for a different RE.
- 46 Finnish sniper finds a target! Make a subsequent dr to determine the attack type; perform the attack as the first action of the upcoming PFPh: dr of <=3: conduct a "1" sniper attack (A14.3)</p>
- dr of =>4: conduct a "2" sniper attack (A14.3)

 *51 Infantry stage a flank attack! Determine the number of squads by a DR. Determine the squad type by a DR {F2}: all are the same type. Determine all SMC/SW using H1.8-.183. Then make a Random dr to determine the edge of entry (north or south). All must enter along the same edge.
- *52 Tanks stage a flank attack! Determine the number {A6d}, type {F6} and armor leader {F3}. All are the same type. Then make a Random dr to determine the edge of entry (north or south). All must enter anywhere along the same edge.
- *53 Finnish combined-arms flank attack! Conduct Finnish REs 51 and 52 [EXC: use Table A6e to determine the number of AFV received]. All units must enter along the same edge.
- *54 Medium "tube" section arrives. Make a dr {A6d} to determine the number of dm medium MTRs received. All are the same type: each comes with a 2-2-8 crew. On a subsequent dr of ≤1 the mortar section is equipped with transport. If so, make a DR {F7} to determine the type. All are the same type; only enough vehicles are received to carry these RE units/weapons. Transport can be refused if desired.
- *55 FRIENDLY airstrike! Determine the type, presence of bombs and numbering entering as per E7.21. Each aircraft is eligible to enter in the next ENEMY MPh. Reroll for another RE if current conditions prohibit air support.
- *56 AT Gun section arrives! Determine the number {A6e} and type {F5a} (all are the same type). Each Gun is crewed by one 2-2-8. At the player's option each such reinforcing Gun may be Manhandled or Towed onboard. Determine the towing vehicle type {F7} (reroll, if necessary, until a vehicle is determined that is able to tow the Gun type; all such vehicles are the same type).
- *61 Artillery support granted! Conduct Finnish RE 31-32 (even if it has previously occurred).
- 62 Fanatics! One Finnish SMC (determined by Random dr) immediately turns Fanatic (A10.8). Additionally, each eligible Finnish Infantry unit in his location that passes a NTC also turns Fanatic (leadership DRM applies as per A15.41). If no Finnish SMC is eligible reroll for a different RE.
- 63 Resist the invaders! All non-Disrupted broken Finnish MMC in the Location nearest a Known ENEMY unit (use Random Selection as necessary) rally. No leader is required in the same location for this RE.
- 64 Fanatics! All unbroken eligible Finnish MMC (A15.41) in the Location nearest a Known ENEMY unit (use Random Selection as necessary) become Fanatic for the duration of the scenario.
- **65-66** Hero! A Hero is immediately created from the Finnish MMC closest to an ENEMY unbroken/vehicular unit. If no such ENEMY unit is onboard reroll for a different RE.
- *71 AT Gun section arrives. Conduct Finnish RE 56 [EXC: use Table A6f to determine the number of Guns received].
- 72 Molotov cocktails are received! All Finnish MMC are granted MOL capability for the duration of the scenario.
- *73 Gun section arrives! Determine the number {A6g} and type {F5} (use the "Outside" column; all are the same type). Each Gun is crewed by one 2-2-8. At the player's option each such reinforcement Gun may be Manhandled or Towed onboard. If Towed, make a DR {F7} to determine the Transport type (reroll, if necessary, until a vehicle is determined that is able to tow the Gun type).
- *74 ENEMY attack called off! The Attitude of all ENEMY units immediately changes to Hold [EXC: if Finnish RE 75-76 has already occurred conduct Finnish RE 46 instead]. All DR on Table A1 now have a +1 DRM; all previous negative DRM applicable on this table are cancelled. Additionally, decrease each ENEMY RE# by one.
- *75-76 Evacuate! Battalion HQ has ordered your command to evacuate their positions, pulling back toward Finnish lines [EXC: if Finnish RE 74 has already occurred reroll for a different RE]. Decrease each Finnish RE# by one. The Finnish side receives Exit VP for each unit exited off the FBE by Mission end. The ENEMY receives Casualty VP for each Encircled Finnish unit remaining onboard at Mission end; double Casualty VP if Finnish unit is Captured/Non-Mobile. Otherwise, the Mission-specific VP schedule still applies. The Mission ends automatically in five Game Turns (counting the current Game Turn as the first of those five turns), or when the last Mobile Finnish unit exits the board (whichever occurs first). Ignore the Mission End method given in the Mission being played.
- NOTES: Although the above Table is based on the official SASL ones for German, US and Russian units, some modification was necessary to reflect Finland's paucity of armour and the overwhelmingly infantry nature of its army. Although the Finns did use tanks, most of these were captured Russian vehicles. The only German armour received was the StuG IIIG (about 30-60 received in 1943-44, which according to one source saw only about three weeks' combat during the Russian summer offensive of 1944), and about 15 PzIVJs which were only used against their former owners when driving the Germans out of Finland as part of the ceasefire agreement.
- Instead we have concentrated on those aspects of Finnish combat which are emphasised in ASL: snipers (there are two instead of one REs reflecting this), high morale and the use of Molotov cocktails. We also recommend that during any scenarios with Deep Snow or Extreme Winter, Finnish MMCs entering via an RE should be allowed the use of Skis, especially during 1939-40.
